

## Dr. Andrew Kuhlberg

Dr. Kuhlberg is a Diplomate of the American Board of Orthodontics, the highest level of specialty certification in the profession. He started his career as a full-time professor at the University of Connecticut School of Dental Medicine, Department of Orthodontics in 1992.

At UConn, his interests in the biomechanics of orthodontic treatment developed. He continues to apply those concepts to patient-specific solutions for challenging cases. Dr. Kuhlberg authored many scientific articles and chapters in orthodontic textbooks that contributed to advancements in the field. He is presently on the editorial review board of *The Angle Orthodontist*, a prestigious professional journal.

Since 2003, Dr. Kuhlberg has been in private practice in Avon, CT

Dr. Kuhlberg graduated cum laude with a B.A. in Biology and Psychology from Hartwick College with departmental honors in Psychology. He earned his D.M.D. from the University of Connecticut in 1989. He continued his specialty training in orthodontics at UConn, receiving his Specialty Certification and completing his Master of Dental Science Degree in 1992.

Dr. Kuhlberg is an avid whitewater kayaker and likes many sports. He also enjoys pottery and woodworking.

## POLICIES & MISSION AT OUR PRACTICE

At Kuhlberg Orthodontics your smile is our top priority! Our specialty practice is committed to providing exceptional orthodontic treatment in a warm, friendly and caring environment. Our primary goal is to create a rewarding experience that gives you your best life-long smile. Whether you are a child, adolescent, or adult, we recognize that every patient is unique and has specific concerns. Our entire team is dedicated to helping each patient address those needs and obtain the beautiful, healthy smile they have always wanted!

Our patient care is based on core scientific principles practiced with traditional personal care. We use only the most advanced and proven methods to ensure our patients receive exceptional treatment and outstanding results. Our goal is to provide orthodontic treatment that is minimally invasive and maximally effective!

## ORTHODONTIC TREATMENT OPTIONS

From traditional *metal and clear ceramic braces* to *Invisalign®* there are many types of orthodontic treatment. We will evaluate your orthodontic needs and discuss all of your treatment options. We want you to understand the differences between them and help you to select the best treatment for you.

Our *fully digital diagnostic records* (radiographs, photographs, and impression-less dental models) allow us to easily and quickly communicate our orthodontic findings and explain treatment options.

While an early evaluation is often requested, we only recommend Early Phase orthodontic treatment for those that will clearly benefit.

## OUR COMMITMENT

*What you should put first in the practice of our art is how to make the patient well; And if he can be made well in many ways, one should choose the least troublesome.*

*Hipocrates, On Joints*

## COMMON ORTHODONTIC PROBLEMS

Orthodontic treatment is more than just straightening crooked teeth. There are many oral health and esthetic concerns that can be improved with orthodontic treatment, including:

- Crooked teeth
- Underbite
- Impacted teeth
- Gaps and spacing
- Crossbite
- Missing teeth
- Overbite
- Openbite
- Surgical orthodontics

Dr. Kuhlberg is a life-long resident of northwestern Connecticut. Growing up in Barkhamsted, he is a graduate of Northwestern Regional #7 High School. Andy is an avid whitewater kayaker and he can be frequently found paddling the Farmington River or other rivers throughout the northeast. He has spent most of his life in or on water. He was a competitive intercollegiate swimmer at Hartwick College. Anytime he can, he gets outside, no matter the weather.

In addition to outdoor sports, Andy enjoys woodworking and pottery with a woodshop and a pottery studio in his home.

Dr. Kuhlberg lives in Canton, CT with his wife, Laura and daughters, Julia and Emily.
